## PROJECT

**Project Name :** Essential services near me

- **Overview:** This is an app which helps us to find the essential services near us
- **Description :** Sometimes it is not easy to find the perfect home services or essential services in our area. So here in this app we can find all the services. We can see their exact location in map as well and also can see the distance from us.
- **Learning Outcome:** I noticed the problems around me and tried to find a better solution for that. I also have learnt how to make and handle an app.

## WORKSHOP / CERTIFICATION

- Web Development workshop (**MERN Nodejs**)
- Workshop on Web development (**Code Block**)
